Close Quarters

We are replacing more than 500 LF of 8" water main in Wall Street from Frye Road to Chicago Street as part of our **Water Main and Valve Installation, Replacement, and Emergency Repairs JOC** project for the City of Chandler. Wall Street in this area is narrow and provides access points for several local businesses. We coordinated with these businesses to ensure alternate access routes were provided and the area was safe for employees and customers. [Visit our website for more project information and photos.](#)

See You On The Flip Side

We have flipped traffic to the north side of Lincoln Drive and are beginning work on the south side as part of our **Roadway Improvements Related to the Ritz-Carlton CMAR** project. We are also installing storm drain on Mockingbird Lane, part of the more than 6,200 LF of storm drain (up to 54") on the whole project. [Visit our website for more project information and photos.](#)

UV CIPP In Tempe

We recently rehabilitated 235 LF of 14" irrigation pipe using ultraviolet light cured-in-place-pipe (UV CIPP) in the City of Tempe as part of our **Underground Utility Construction JOC** project. This work was completed at 3rd Street and Roosevelt Street in a Historic District with narrow streets. We maintained resident access and traffic flow in the area throughout construction. [Visit our website for more information and photos.](#)

Mask Up

Achen-Gardner remains committed to the safety and well-being of our employee-owners, partners, and the public while we work to ensure our projects are completed on schedule. We are adhering to social distancing guidelines, wearing masks, and conducting many of our meetings online. We are following updates from the CDC and OSHA and improving our workplace sanitation and safety measures accordingly.

Upgrading Airport Manholes

We are rehabilitating 29 sewer manholes (48" and 60") adjacent to the Chandler Municipal Airport as part of our **Sewer Main and Manholes JOC** project for the City of Chandler. This work includes 10 coating repairs and 19 manhole inserts. With work taking place both on and off airport property, we are coordinating with airport staff to ensure their operations are undisturbed during construction. [Visit our website for more information and photos.](#)

Phoenix Water Line

We are installing more than 1,100 LF of 14" HDPE water line near the Rio Salado Habitat Restoration Area as part of our **Right-of-Way On-Call Water Main Replacement JOC** project for the City of Phoenix. This area has required extensive traffic control and coordination with other contractors as it is the area of construction for Valley Metro's South Central Extension of the light rail.
