New Lift Station Taking Shape

Achen-Gardner Construction is making progress on a new lift station as part of our **West Anthem Lift Station No. 76, Force Main, and Water Main Design-Bid-Build** project for the City of Phoenix. We are finishing the perimeter masonry wall and next we will install the electrical duct banks, electrical pad, generator pad, and wet well pad. When this project is complete, the lift station will accommodate flows of up to 0.5 MGD and will include one 5' diameter manhole, two submersible 35-horsepower pumps, a 7' diameter and 31' deep precast polymer concrete wet well, and a 200kW generator.

We are also making progress on the installation of the force main south of the lift station along Pioneer Road. Due to rocky soil conditions, we are utilizing a drum cutter on a CAT 349 excavator to grind through rock and excavate the trench, and we have brought in a second crew to stay on schedule.

WAS Line Rehabilitation

We have started preliminary work to rehabilitate more than 15,000 LF of 6” waste activated sludge line with Primus Line. We have unloaded and inspected the Primus Line materials and we are working nights in ADOT right of way to prepare the site. This work is being done on our City of Glendale Arrowhead Ranch Water Reclamation Facility WAS Line Rehabilitation CMAR project. [Visit our website for more information and photos.](#)

Paradise Valley Update

We are continuing work on Lincoln Drive as part of our Roadway Improvements Related to the Ritz-Carlton CMAR project for Paradise Valley. Grading, paving, and concrete flatwork is in progress on the south side. We are also installing storm drain on Mockingbird Lane. [Visit our website for more information and photos.](#)

New Faces at Achen-Gardner

Achen-Gardner Construction is proud to announce the addition of three new team members:

Jason Robinson, PMP joins the team as Director Water/Wastewater Plants, increasing our ability to install, upgrade, and modify water and wastewater treatment and conveyance systems.

Detrich Bob joins the team as a Project Engineer. Detrich brings three years of industry experience.

Isom Jackson joins the team as a Project Engineer. Isom brings three years of industry experience.
